The above <213> response is invalid, per Sequence Rules. The only valid
responses are:  the Genus species of the organism, "Artificial
Sequence," or "Unknown."  "Artificial Sequence" and "Unknown" require
explanation in the <220>-<223> section; please give the source of the
genetic material.  "Chemically synthesized" would be a valid explanation
for "Artificial Sequence."  Same error in subsequent sequences.
